Approved master's thesis topics at the University for Information Science and Technology "St. Paul the Apostle" starting from 2021:

- **Izabela Mitreska**, “Cloud-based Electronic Health Record System for efficient Covid-19 Pandemic Management” - November 15, 2022.
- **Oliver Simonoski**, “Block MedCare: Design and Implementation of blockchain and distributed ledger of electronic health data” - November 15, 2022.
- **Eliza Bajrami**, “Online education and Covid 19 Pandemic” - March 9, 2023.
- **Mirsat Sefidanoski**, “The Impact of Microservices on Advanced Smart Distributed Systems and Architectures” - April 19, 2023.
- **Marija Bukalevska**, ”Online Social Networks: Threats, Risks, Privacy and Security. Solutions and Guidelines for Better Protection on Online Social Networks” - June 28, 2023.
- **Blagoj Shikoski**, “A Green Cloud Paradigm for Empowering Musician Network” - October 17, 2023.
- **Jovan Kanevche**, “Autonomous Governance: Bridging Artificial Intelligence and Blockchain in Decentralized Autonomous Organizations” - October 17, 2023.
- **Danail Runchevski**, “Exploring Surface Sampling Techniques for Enhanced Realism and Creative Inspiration in Computer Graphics and Visualization” - October 17, 2023.
- **Nikola Skenderov**, “Application of modern technologies for monetization in terms of user acceptability and trust” - November 27, 2023.
- **Floriana Doko**, “AI FOR WEB USABILITY” - January 30, 2024.
- **Teala Seferi**, “Applications of artificial intelligence for fake news detection and filtering“-January 30, 2024.
- **Vlatko Grujoski**, “Impact of COVID 19 and post COVID 19 effect on e-pharmacy market-analysis of VGE pharmacy application, statistical data processing, and user experience” - January 30, 2024.
- **Olga Petan**, “Cognitive Bias Reduction in Human Radiologists Through Thoracic Disease Classification With Azure Auto ML” - October 15, 2024.
- **Jovan Ilovski**, “Distant Reading and AI: A New Paradigm for Exploring Literature” - April 2, 2025.
- **Bisera Chauleva**, “Improving Conversions and Engagement in Digital Marketing through Advance Analytics Techniques over Customer Data“- April 2, 2025.
- **Sofija Baloska**, “Artificial Intelligence, Blockchain and Chatbots in e-commerce” - May 9, 2025.
- **Emilija Vrangalovska**, “Building Intelligent Chatbots Using RAG: Evaluating LLMs, Vector Stores, and Blockchain Integration” - May 9, 2025.
- **Svetlana Mitrevska**, “Transparency and Security in Nonprofit Donations Using Blockchain Technology” - May 9, 2025.
- **Filip Milosheski**, “Improving project and operational efficiency with project management software and invoicing automation” - August 25, 2025.
- **Darko Poposki**, “The Human-AI Security Interface: Designing Cybersecurity for Collaborative Autonomy in Industry 5.0” - November 11, 2025.
- **Blagoja Naumoski - Guli**, “Digital Maturity and AI Readiness of NGOs in the Republic of North Macedonia: Assessment, Barriers, and Strategic Roadmap” - November 20, 2025.
- **Petar Risteski**, “Assessment of the Phases of Digital Transformation in the Municipalities of the Republic of North Macedonia” - November 20, 2025.
